Serving as a research scientist for Woolpert specializing in our UAS services, **Aaron Lawrence** has over 15 years of GIS and remote sensing experience developing processes for data creation, data exploitation, and information gathering.

Having implemented industry-quality software using a broad knowledge of geomatics, with particular emphasis on GIS, he spearheads algorithm research and development for the U.S intelligence community, as well as state and local governments.

In the field of UAS technology, Mr. Lawrence is integral in establishing workflows for data collection utilizing unmanned aerial system (UAS).
