

**Justin S. Wells** is a RF Design Engineer at NuWaves Engineering.

Justin graduated with a Bachelor of Science Degree in Electrical Engineering from Wright State University.

Justin has worked for NuWaves since 2011 where he has worked as part of a design team on numerous projects for Military and Defense applications.

Justin has most recently worked on Independent Research and Development (IRAD) projects designing innovative products for NuWaves.

In this capacity, Justin has worked on numerous RF power amplifier products for UAS clients as well as provided technical and integration support including onsite field testing.
