

**Andrew Wentworth** has been flying UAS since 2000.

His UAS experience spans operational military missions, manufacturer flight test and development, civil flight instruction, and flight test for an FAA UAS Test Site; altogether amounting to 15 years in the UAS field.

He was the first graduate of Embry-Riddle Aeronautical University's Master of Science in Unmanned Systems (MSUS) program.

In his spare time, he fly's RC planes, downhill skis, and considers himself a gearhead.
