

Mike Jarrell is the Engineering Project Manager of the Unmanned Aircraft Systems Integration in the National Airspace System Command and Control Subproject at NASA's John H. Glenn Research Center in Cleveland, Ohio.

Significant contributions from current Unmanned Aircraft Control and Non-Payload Communications (CNPC) Systems research are supporting the RTCA SC-228 in the development and validation of Minimum Operational Performance Standards for UAS Terrestrial-based Command and Control Systems.

Mike has managed various space and aeronautical communications research, development and integration projects over the past 30 years with NASA.

He is a graduate of The University of Akron with a degree in Electrical Engineering.
