

Roy Peshin, Simlat

Mr. Peshin is the CTO of Simlat since 2004 and a UAS professional since 1998.

Roy is highly experienced in the development and fielding of cutting edge technologies related to UAS, Simulation, remote sensing and GIS technologies.

Also, he has led Simlat's development of advanced Human Factors and performance evaluation tools.

Roy has been invited to speak at many international conferences on these topics.

Roy holds a Physics BSc from Tel Aviv University and an MA in ancient history and Archaeology.
